

Tech Pack Checklist

For startups without a full tech pack — gather these items before custom development. Upload PDF/ZIP via <https://eleviaapparel.com/request-a-quote/?track=custom>

Must-have for accurate sampling

- ☐ **Flats / sketches**
Front and back flats, or clear reference photos from multiple angles
- ☐ **Measurement chart**
Key POM for sample size + graded points if available
- ☐ **BOM**
Shell, liner, elastic, zippers, drawcord, labels, hangtags
- ☐ **Construction notes**
Seam types, stitching, bonding, gusset, pocket geometry
- ☐ **Artwork placements**
Logo size, position, technique (HT / silicone / embroidery)
- ☐ **Fabric target**
Platform or fiber + GSM + stretch + hand notes
- ☐ **Fit block**
Relaxed / athletic / fitted / compression + size range
- ☐ **Label & packaging**
Neck label, care label, polybag, carton marks
- ☐ **Order intent**
Colors, qty per color, target market, in-hand date

If you only have a reference garment

- Ship or photograph the garment with a size label visible
- Note what must stay identical vs what can adapt to an ELEVIA block
- Call out problem areas (rise, liner length, pocket, opacity)
- Share target FOB range and first-order quantity
- We measure, assess cut-and-sew feasibility, then quote honestly
